

Dear Parent,

This age group focuses a lot on responsibility and learning to do tasks.

I love rubrics-these show children exactly what is expected from each task they are being asked to do.

At this age they need pictures.

I recommend that when you do weeks 5-6: Following Directions and patience you print some visual cards to help your child know how to do the tasks correctly.

I found a great site that has a lot of multi-step directions in picture format for various tasks at:
